ALL CREATURES GREAT AND SMALL

In 2014 we at Animal Nepal took a 'giant' leap by including working elephants in our programme. After stray dogs and working equines, it was now the turn of these majestic animals to receive some special attention.

While writing this preface, we like to express our deep appreciation to our countless friends and volunteers, both within and outside the country. Thanks to you Animal Nepal this year was able to reach out to 2,385 dogs and 472 working equines. We also published "An Elephant is Not a Machine", a survey into the welfare of safari elephants, providing us with a foundation to campaign for improving the lives of private sector working elephants.

Among the most visible successes of 2014 are:

- Signed an MOU with the municipality
- Build a new eco-friendly Donkey Sanctuary
- Campaigned against dog killing, elephant abuse and Gadhimai Festival
- Introduced World Donkey Day to Nepal
- Improved our visibility in the media

In 2014 we completed the construction of a new ecofriendly donkey sanctuary featuring a farm-like resort and education center. Due to some unresolved issues with the local community we have not been able to move the rescued donkeys yet, but hope to do so soon.

We continued the Catch, Neuter, Vaccinate and Release (CNVR) camps in villages in our working area, further reducing the number of sufferings stray dogs. Thanks to the intense education programmes for donkey owners and handlers, the death rate of equines in brick factories in Lalitpur decreased with 50 percent.

None of these achievements would have been possible without our staff. Thanks all of you for your hard work! Last but not least we want to thank our loyal international donors, who helped us reach out to countless suffering creatures, both great and small.

Thank you, everyone, for your ongoing trust, advice and support. For the animals,

PRAMADA SHAH, PRESIDENT
LUCIA DE VRIES, VOLUNTEER DIRECTOR

MESSAGE FROM **THE DIRECTOR**

Dear All,

At Animal Nepal our journey is challenging: at times deeply frustrating and at times full of joy. We feel frustrated when we are being scolded by people in the community, or when despite our efforts residents at our shelter don't make it. We feel happy when a sick or injured dog recovers, a badly treated donkey comes back to life, or a tiny puppy gets adopted by a nice family. These moments are a source of energy which motivate us to move forward.

I would like to thank the team of Animal Nepal which devotes day and night for the good cause. I also like to thank our international partners and the countless Nepalese supporters without whom we can't dream to win the race.

With your support, we will continue to reach out to as many needy animals as possible in the coming days. We continue to trust your commitment and valuable suggestions.

Finally, I like to express my delight at being part of this 'animal family' and contribute my knowledge to enhance the mission of Animal Nepal. Every little step takes us closer to our goal: a life of dignity for all creatures great and small.

Sincerely yours,
Uttam Kafle
Executive Director, Animal Nepal

2014 IN WORDS AND IMAGES

2014

10

FEBRUARY 21- 100 DOGS WERE SPAYED ON WORLD SPAY DAY AT SAURAHA

On the occasion of World Spay Day, Animal Nepal, HART and Animal Rights Club (ARC) came together with Baghmara Bufferzone Committee and four Sauraha hotels to provide 100 Sauraha dogs with family planning. Many other dogs were treated and vaccinated.

JANUARY 8- ANIMAL NEPAL RESCUED A DROWNING EQUINE FROM KANTIPUR BF

AN rescued a partially blind horse who had fallen into a sewage. She was in danger of drowning if no immediate action was taken. With the help of vets and volunteers, the horse was lifted out of the sewage and a quick medical check was conducted. She was then taken to our Sanctuary where she received emergency treatment.

MARCH 8- ANIMAL NEPAL ORGANIZED EQUINE HANDLERS WORKSHOP

AN organised a motivational workshop for equine owners of brick factories in Lalitpur district. AN organizes workshops for equine owners and handlers, of whom 25% are children. Games involve creative games, group participation and communication. A blindfolding session gave an idea to equine owners how difficult it is for blind equines to walk carrying heavy loads. The programme was supported with a team of volunteers from "Hands for Care".

MARCH 17- STUDENTS HELPS BUILD ECO FRIENDLY SANCTUARY AT BADHIKHEL

Students from Little Angels School came together for the construction of an Eco-friendly Donkey sanctuary at Badhikhel, Godavari. The project was sponsored by Brigette Bardot Foundation.

MARCH 29- AWARD CEREMONY HELD FOR EQUINE OWNERS OF LALITPUR

Top 3 equine owners were chosen by our vets observations over the last two months and a detailed ranking system based on AN's Good Practices document. NeejamKasghar from Champi Brick Factory received third prize, second prize was given to Mr.GanuKasghar from Bajra Brick and first prize to Mr.MuktaarKasghar from R.M. Brick Factory. The prizes were items like water filters, pressure cookers and electric lights. After the award ceremony the equine owners vowed to do even better next time and treat their animals humanely, as part of their family.

APRIL 26- BEST EQUINE HANDLER AWARDED ON WORLD VETERINARY DAY

AN handed over Rs 2000 to Rahul Hindu from Tri Shakti Brick factory for taking good care of 'his' mules and donkeys. Rahul came first based on a list of 'Good Practices' which included proper feeding and watering, sheltering, loading, as well as immediate treatment and absence of beatings.

MARCH 15- ANIMAL NEPAL CALLS FOR AN INVESTIGATION INTO MAHOUT KILLING AT SAURAHA

Animal Nepal and Elephant Aid International urged the authorities and elephant owners' cooperative to conduct an independent investigation when Safari elephant Champa Kali killed Mahout Moti Lal Chaudhary (50) on March 12 during public bathing. "Mahouts are being killed on average every two years. It is important to know what the factors are behind the killing, and to rectify conditions in such a way no mahout or tourist gets attacked in future," say representatives Lucia de Vries and Carol Buckley.

APRIL 2- AN CELEBRATES ANIMAL AND ENVIRONMENT WITH FIRST MONKEY MELA

Animal Nepal organized a festival which celebrated animals and the environment. The Mela promoted green innovations which could be easily adopted at home. The festival featured Animal Nepal's ongoing Garage Sale for a Better World, 'up cycling', workshops for children, puppy adoption drive and Kathmandu's first ever Mongolian yurt. Under the guidance of Sony KC and Coralie Muller, children learned to do some up-cycling of their own, or practice zoomba dancing.

MAY 17- ANIMAL NEPAL CALLED FOR AN INVESTIGATION INTO SAURAHA DOG POISONING

Animal welfare organisations together with a group of 30 tourists and pet owners call for an independent investigation into the poisoning of an estimated 40 dogs in Sauraha. One poisoned dog was found floating in the Rapti river. A group of tourists has conducted a memorial for the canine victims and started a campaign on social media. The dogs were killed just three months after Animal Nepal together with various partners introduced humane dog management in Sauraha.

MAY 8- WORLD DONKEY DAY CELEBRATED WITH THE SLOGAN "DONKEYS DESERVE DIGNITY"

Animal Nepal on World Donkey Day worshipped some 25 donkeys at its sanctuary as well as Goddess Shitala, who rides a donkey. She is one of the most popular Hindu deities whose origin can be traced back to the days of nature worship. During the event Animal Nepal also handed out donkey saddles in nearby brick factories. The improved saddles helped to prevent body sores from the heavy loads.

12

JUNE 14- "CHOBAR RABIES FREE" VACCINATED 42 COMMUNITY DOGS

As a part of an ongoing campaign by Animal Nepal and local clubs, 42 community dogs was vaccinated at the beautiful village of Chobar. Among the vaccinated dogs two dogs were rescued and sent to Chobar Animal shelter for further treatment.

JULY 24- DEATH RATE AMONG 'BRICK DONKEYS' WENT DOWN WITH 50%

The death rate among 'brick donkeys' with 50% in the first quarter of 2014 compared to 2013. Other positive developments were the increase in the use of horses and mules compared to donkeys (respectively 35%, 42% and 20%; 3% of equines are foals). Equine owners also started introducing carts or buggies, pulled by strong horses and mules in brick factories with a flat terrain and saddle wounds was decreased and the equines' general condition improved.

JULY- ANIAML NEPAL CELEBRATES JULY AS DOG ADOPTION MONTH

During Dog Adoption Month, Animal Nepal promoted the adoption of puppies from its Chobar Animal Sanctuary. Participants received an adoption pack, including certificate, a cute belt and a voucher for one year free treatment. Animal Nepal also promoted that by adopting a local breed, it reduces chances of animal abuse. When buying a pure breed customers support one of the many unmonitored puppy mills that exist in the country. Animal Nepal aimed to stop puppy mills and connect shelter dogs to loving homes.

AUGUST- ANIMAL NEPAL CELEBRATES SUCCESS OF JULY ADOPTION MONTH

Animal Nepal celebrated the success of the adoption month. Eight lucky puppies were adopted by loving families. Among them were Chris Stromlund, Milan Shrestha, Amrita Subedi, Tara Buddha Magar, Saral Shrestha, Santosh KC and Hari Kumar Dhoju.

JULY - SMALL HANDS FOR A BIG CAUSE

Students from Linclon School managed to raise funds worth Rs. 5,300 and 17,500 respectively for needy animals treated by Animal Nepal. The students were happy to do something special to make a difference in the lives of suffering animals. The students collected the funds by making and selling notebooks and organizing different events. They got together to bake cookies and made notebooks from waste paper. During the school carnival they sold second hand clothes and chocolate chip cookies. The PreK children even ran a restaurant for the good cause!

SEPT 28- PATAN DURBAR SQUARE 'RABIES FREE ZONE' ON WORLD RABIES DAY 2014

On World Rabies Day 2014, Animal Nepal turned the Square into a rabies free 'zone'. The vaccination camp aimed to vaccinate around 50 dogs. First locals received education materials and information about the rabies virus and the importance of vaccination. When the team started at Krishna Mandir temple, they found that the dogs were calm and peaceful, which made the catching easy.

OCTOBER- ANIMAL NEPAL PARTICIPATED IN HUMANE DOG MANAGEMENT CAMP AT BARIYAPUR

Animal Nepal participated in a humane dog management camp to spread positive messages regarding animal welfare in the Gadhimai festival area. An ABC/AV (Animal Birth Control/ Anti-Rabies Vaccination) Camp was held at Bariyaphat, Bara, with the support of the local Livestock Office. The program was sponsored by Humane Society International (HSI) and coordinated by AWWN. The medical staff of Animal Nepal and Himalayan Animal Rescue Trust (HART) were able to spay 72 females and castrate 1 male. 105 dogs were given anti-rabies vaccines.

OCTOBER 20- ANIMAL NEPAL WORSHIPS RESCUED DOGS DURING KUKUR TIHAR

On the occasion of Kukur Tihar 2014, Animal Nepal invited visitors to worship rescued dogs at its Chobar Animal Sanctuary and make pet toys from recycled materials. During this year's dog worship Animal Nepal expressed its concern about unregulated dog breeding and the lack of responsible pet ownership. The event started with visitors offering their blessings to rescued dogs and donkeys. And the participants were also invited to make pet toys from recycled materials.

OCTOBER- ANIMAL NEPAL CAMPAIGNS AGAINST BIRTH CONTROL INJECTIONS FOR PETS

Birth control injections, when used over a period of years, increase chances of uterine disease, especially pyometra, a very serious disease in females. The uterus gets infected and slowly fills with puss. One of signs is vaginal discharge, and by this time immediate treatment is required to save the dog. Hence, Animal Nepal strongly voiced against the use of such injections.

OCTOBER- ANIMAL NEPAL PUBLISHES "AN ELEPHANT IS NOT A MACHINE"

Animal Nepal published the important outcomes of a detailed survey into the welfare conditions of safari elephants in Sauraha, Chitwan, called 'An Elephant Is Not A Machine'. The survey of 42 privately owned 'safari elephant' in Sauraha learns that their welfare is greatly compromised. The survey learns that 18% score sufficient

AN ELEPHANT IS NOT A MACHINE

A Survey into the Welfare of Private Captive Elephants in Sauraha, Chitwan National Park

to fall in the category 'Improving Conditions'; 82% of surveyed elephants live under 'Unsuitable Conditions'. No elephant qualifies for 'Excellent Conditions'. Welfare conditions fall short in many areas the main being freedom of movement, shelter conditions, nutrition, health and healthcare, safari management, as well as mahout welfare.

NOVEMBER- ANIMAL NEPAL EXPRESSES CONCERN OVER DEATH OF TWO SAFARI ELEPHANTS IN SAURAHA

Photo credit Surajan Shrestha

Animal Nepal was deeply saddened by the death of two safari elephants, both called Laxmi Kali. Both elephants carried tourists into the jungle a few days short of their passing. The safari elephants died reportedly from digestive problems but basically lost their lives to the systematic mismanagement that has become a feature of Nepal's elephant safari industry. Animal Nepal also suggested that in order to save human and elephant lives, and to improve the image of the tourism industry, authorities and elephant owners should cooperate to improve safari management at the earliest.

NOVEMBER- ANIMAL NEPAL ORGANIZES A PHOTO EXHIBITION AT PLANET NEPAL 3

Animal Nepal was able to make a remarkable presence on the Planet Nepal 3, the festival of arts & environment. The main aim of the participation was to make people aware about the role of animals. It was the exhibitions of portraits of animals from our shelter, mostly by photographer and designer Nirmal Rana, with their added voices. Like the one from Laxmi Kali, whose voice was, "I am 70 years old and still you want to ride me?" Animal Nepal also sold cup cakes and T-shirts. The income went to the elephant welfare project at Sauraha.

NOVEMBER 3- ANIMAL NEPAL STANDS UP AGAINST REMOVAL OF DOGS AS SAARC SUMMIT APPROACHED

**"ARE WE NOT
VIPs TOO?
PLEASE DON'T
REMOVE US
FROM OUR HOME
ON THE STREET"**

Animal Nepal today urged Kathmandu Municipality to stop the removal of dogs from the streets before the SAARC Summit. The welfare organisation said the animals will suffer from hunger, and possibly even turn into wild dogs. "Animal welfare has become an integral part of society and humane dog management is the only real solution," said Animal Nepal in a Letter to CEO Dhan Bahadur Shrestha and Minister Prakash Man Singh. According to the organisation, relocating dogs is not an option, as dogs are territorial and have carved out their niche on the street.

NOVEMBER 3- MUNICIPALITY SIGNS MOU FOR HUMANE DOG POPULATION MANAGEMENT IN LALITPUR

While the authorities tried hard to create a city free of stray dogs with the arrival of the SAARC Summit, animal activists across the country spoke out for canines. Good news came from Lalitpur Sub-Municipality when they officially decided to support Animal Nepal in its humane dog population management efforts rather than poisoning or relocating them. The 8 point MOU was signed by Lalitpur Sub-Municipality CEO Mr Tara Bahadur Karki and Animal Nepal's President Ms Pramada Shah which consists of humane way of sterilizing the dogs and their basic right to live.

NOVEMBER- ANIMAL NEPAL REQUESTS THE DONATION OF OLD BLANKETS FOR SHELTER DOGS

MAKE SURE THIS WINTER NOBODY DIES FROM COLD!

If you have old and unused blankets left at your home then please donate it to Animal Nepal Chobar Animal Shelter! Save our furry friends from cold this winter!

animalNEPAL.org
A VOICE FOR THE VOICELESS

As stray dog often suffer from hair loss and malnutrition and on top of that lack a home and a cosy shelter. Thus Winter tends to be very difficult for them. But with a little bit of effort and kindness we can save a dog this winter. The reason for which ANimal Nepal pleaded for the donation of old blankets for their shelter dogs.

NOVEMBER- ANIMAL NEPAL CONDUCTS 3 DAYS LONG CNVR CAMP

Animal Nepal conducted a CNVR-M camp, (Catch Neuter Vaccinate Release-Monitor) in the period November 21 till November 23 at its Chobar Animal Sanctuary. As part of its ongoing humane dog population programme, dogs were selected from two core areas: Kirtipur (Tyanglaphat) and Gwarko. The 3 days long camp sterilized and treated 65 dogs. Besides community dogs we also welcomed some pet dogs from other parts of Kirtipur and Kathmandu. The expert team of veterinarians included Dr Sudip Koirala, Dr Pranav Joshi, and Dr Atish Yadav whereas Dr Sunil Thapa, Dr Shankar Sapkota, Dr Kshitiz and Hari Krishna provided technical support to the surgery.

16

NOVEMBER- ANIMAL NEPAL RECEIVES PILES OF BLANKETS FROM ANIMAL LOVERS

In response to our plea, Animal Nepal received piles of blankets and cloths from it's well wishers. Among them were Nima Ghale and Jigme Gurung who donated 4 blankets to the shelter. Other blankets came from Pharping Monastery and from our star volunteers Eva Manandar and Meena Khadka.

DECEMBER 1- ANIMAL NEPAL LEADS THE PROTEST "WE WILL NOT FORGET" AGAINST GADHAMI FESTIVAL 2014

Despite the efforts of campaigners both within Nepal and across the world, thousands of animals were killed in the name of religion at Gadhimi festival. In response to the cruelty, concerned citizens dressed in black protested with banners and placards that said 'Why does the government remain silent?', 'We deny to step on innocent blood!' and 'Stop Animal Sacrifice'. The silent protest started from the Hanumansthan, Anamnagar, and eventually turned into a rally that passed various ministries.

OUR **SUCCESS** STORIES

19

SUNDARI, THE BLUE EYED DOG

Animal Nepal rescued Sundari from Sundharighat in a very critical condition. She suffered from advanced E-canis which caused weight loss and severe weakness. She also suffered from a bad mouth infection and had become blind in one eye. We had no hope that Sundari would make it. But after a month

long medication, Sundari slowly began to revive. As soon as the infection in her mouth subsided she started eating a lot and totally overcame her disease like a miracle. She was then adopted by SEA Nepal children's home with two other dogs and bunch of loving kids.

20

ANUP, THE FASTEST RUNNER

Anup was a very brave pup rescued from a car accident from Lalitpur. One of his front leg was badly wounded. Anup front leg had to be amputated. He was just a pup when he went through such a major surgery of amputation. After his surgery Anup stayed with us at our shelter for few

months. We were really worried for him as people rarely adopts a hapdicapped dog. BUt finally we found an angel. Anup along with Junu (another pup from shelter) was adopted by Eriko Yoshida. Now Anup lives a happy life with his new mom! All thanks to Eriko!

KALU, THE LUCKY GUY

Kalu, 8months old, male pup, was abused by an elderly couple. Since Kalu kept pooping and peeing inside the house & destroying things he was beaten mercilessly. It was also suspected that the owners tortured him with electric shock. We found Kalu tied on the roof up-close to the side wall under a hot scorching sun which restricted his movement. When we

suggested the owners to get him a dog trainer, they simply ignored by saying they have NO TIME to do such things! After concluding that they were not a responsible owners we took Kalu with us. Kalu has been adopted by a loving family and he is enjoying his new freedom.

OVERVIEW OF THE TREATMENT: **EQUINE OUTREACH PROGRAM 2014**

In 2014 Animal Nepal continued its Working Equine Outreach Program through health camps in brick factories, equine owners' and handlers' workshops, and the rescue of injured and abandoned equines. A total of 1677 equine treatment cases were recorded this year.

Figure 4- Treatment Overview of Equine Outreach Program 2014

This year proved to be a major milestone for Animal Nepal in the field of equine welfare. There were some notable changes in the lives of working animals at brick factories of Lalitpur. Among them are the decrease in death rate among 'brick donkeys' by 50% in the first quarter of 2014 compared to 2013. Other positive developments were the increase in the use of horses and mules compared to donkeys (respectively 35%, 42% and 20%; 3% of equines are foals). As horses and mules are at least eight times more expensive than donkeys, they are better cared for. Equine owners have started introducing carts or buggies, pulled by strong horses and mules in brick factories with a flat terrain. As a result of these developments, the presence of saddle wounds has decreased and the equines general condition improved.

Table 4- Treatment Overview of Working Equine Outreach Program 2014

Rescue the sick and abandoned

This year Animal Nepal rescued total 10 equines. The major rescue was from Swet Bhairab brick factory, Bhaktapur. Seven severely sick and handicapped donkeys were rescued and taken to our donkey sanctuary for treatment after their owner abandoned them. Most common cases among them were blindness, lameness and neurological problem. We were not able to save one donkey, who suffered from partial blindness and multiple infections. However, the remaining four donkeys now live in a healthy and green environment at our Badikhel donkey sanctuary. Other 3 rescues were from Kathmandu, Satungal. All of them are sponsored through individual sponsors from Animal Aid Abroad and are called by their permanent names which they received through "Name a Donkey Auction".

OUR **SUCCESS** STORIES

25

MOX

Three years old Mox was the victim of a fight among equines at a Bhaktapur brick factory and suffered from a bended leg and multiple injuries. Animal Nepal's veterinarians provided the hard working equine with medical treatments including painkillers, Vitamins and Neurobin injections. Comfortable bedding was provided to ensure his comfort. With regular follow up treatment and hoof trimming Mox' front leg slowly recovered but still suffered from bended front legs. Dr Koirala and Yadav decided it was time for electric laser massage therapy. The treatment continued for about four months. Mox then started to show rapid improvement and changes in his appearance. His body color changed from red brown to black. Today Mox' legs are completely recovered and the young mule is enjoying a comfortable life with other rescued 'brick donkeys' at the shelter.

26

HELLA

Hella is 8 years old beautiful pony rescued from Bhaktapur Brick Factory. At the time of her rescue she suffered from a severe bacterial infection, saddle wounds and hoof problems. The owner was not ready to keep and treat her and we had no expectation that she would make it if abandoned. Hella was then taken to the Chobar Animal Shelter. The first few days were worst for Hella. She struggled to survive as our dedicated team kept eyes on her 24/7. After a month long medication Hella began to show improvements. Her feeding and appearance started getting better day by day. It's been almost a year since we rescued her and now Hella is fully recovered although she will always have a slight walking problem. She enjoys her new life with her few best friends at our Donkey Sanctuary. She was named 'Hella' by Bert Plusquin after the name of his partner through our Name a Donkey auction.
